PROFESSIONAL SUMMARY

Lead Full Stack Developer and technical leader with experience guiding small and larger teams, planning architecture and turning complex requirements into shipped products. I combine hands-on engineering with team leadership, system analysis, DevOps awareness and practical business thinking. I have led 15+ engineers, improved delivery time, reduced cost, modernized core systems and delivered platforms used across e-commerce, transport, automation, CRM and AI/prompt tools.

LEAD FULL STACK DEVELOPER FOCUS SKILLS

Technical Leadership, Team Leadership, System Architecture, Agile/Scrum, Product Delivery, Python, Django, FastAPI
PHP, Laravel, React.js, Next.js, Vue.js, Express.js, Docker, Docker Swarm, Linux, CI/CD, Database Optimization
Legacy Modernization, Mentoring, Jira

Also strong in: Machine Learning, Prompt Engineering, Kong API Gateway, Terraform, Prometheus/Grafana/Sentry, Jira, Agile/Scrum, Linux administration

RELEVANT EXPERIENCE

Senior Software Engineer | goloogoloo.com | Mar 2024 - Present | London Area, United Kingdom | Remote

- Designed and developed e-commerce and fintech-style platforms, including SarafiRasmi and Kavir Market, with Python, Django, Vue.js, APIs, Dockerized services and operational dashboards.
- Moved manual Google Sheets and WordPress workflows into custom web platforms and microservices, improving performance and operational efficiency by up to 90%.

Chief Technology Officer / Senior Full-Stack Lead | Shipnow1800 / Data Pardazesh Sepano | Aug 2020 - Jul 2024 | Isfahan, Iran | On-site

- Led a 15+ member engineering team across transportation, CRM and operations products; improved delivery speed while helping clients and company reduce cost/time by around 20%.
- Owned technical planning, task delegation, architecture decisions and mentoring for small and larger teams.

Senior PHP Programmer | PARTAK | 2017 - Aug 2020 | Isfahan, Iran

- Developed and maintained large-scale pure PHP and CodeIgniter systems, delivering 50+ new features and improving existing modules.
- Resolved support issues through code, database and performance fixes, often working directly with product and support teams.

Full Stack Developer | Lotus | Oct 2015 - Sep 2017 | Part-time

- Built CRM modules, analyzed existing source code, proposed practical solutions, and delivered backend/frontend features and bug fixes.

SELECTED PROJECTS

ShipNow | Aug 2020 - Jul 2024 | *Laravel, Sentry, Linux, Payments, PostgreSQL/MySQL*

- Worked on Isfahan's large intelligent goods transportation system with online motor courier, van cargo and truck services, supporting thousands of active drivers.

PromptIQ | Oct 2025 - Present | *Next.js, FastAPI, Docker Swarm, Dockploy, Microservices*

- Designed and developed a social network and prompt-management platform from zero, including user profiles, prompt discovery, productivity tools, microservices and containerized operations.

SarafiRasmi | Mar 2024 - Present | *Python, Django, Vue.js, FastAPI, Docker Swarm, RBAC*

- Built a currency exchange platform with multi-role users, dynamic pricing, automated commissions, agent workflows, dashboards, reporting, MFA and role-based access control.

Kavir Market | May 2024 - Present | *Django REST Framework, Vue.js, Docker, Amazon API, Dashboards*

- Developed a multi-vendor e-commerce platform with Amazon/global marketplace purchasing, dynamic price calculation, custom orders, dashboards, transaction history and secured workflows.

Nachsendeauftrag Service | Feb 2026 - Present | *React, Express.js, FastAPI, Selenium, Docker*

- Rewrote an insecure one-file React system into a cleaner React/Express architecture with safer validation, backend separation and automation. Improved sales conversion and security posture by more than 90%, and built a Selenium + FastAPI bot for complex registration workflows.

ADDITIONAL PROJECT BREADTH

Rundfunkbeitrag Online - React, Express.js, Enterprise Workflow

Fastio Open Source CLI - Python, FastAPI, SQLAlchemy, Alembic

Dollyton - FastAPI, Golang, Nuxt.js, Docker

BOTMAM - Laravel, Vue.js, FastAPI, Docker

Hobilar / Duvita / Mona - Laravel, Django, CRM, Backend

FOCUSED CERTIFICATIONS

DevOps - IBM, Issued Feb 2023 (*Credential ID: 44fd06a2-e999-411c-b192-57576c3a40d5*)

Back-End Development - Meta, Issued Jan 2023 (*Credential ID: UL49UYDY6QNA*)

Front-End Development - Meta, Issued Jan 2023 (*Credential ID: M7BJLVY3DLCH*)

Version Control - Meta, Issued Jun 2023 (*Credential ID: JGXWGJPFQ2ZY*)

Supervised Machine Learning: Regression and Classification - Stanford University, Issued May 2026 (*Credential ID: L3N8TZ5PQU6N*)

AWS Educate Introduction to Generative AI - Training Badge - Amazon Web Services (AWS), Issued Nov 2025

Django Web Framework - Meta, Issued Jul 2023 (*Credential ID: dd645941243a1af89af8246a0a382b77*)

EDUCATION, LANGUAGES & RECOGNITION

Education: B.S. Computer Software Engineering, HRTC | Associate Degree, Computer Software Engineering, Azad University (IAU)

Languages: English C1 | German A1 | Persian Native

Recognition: Author of a PHP book; experienced across small and large teams in international projects.
